

Front matter | evidence sheet 001

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 002

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 003

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 004

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 005

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 006

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 007

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 008

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 009

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 010

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 011

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 012

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 013

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 014

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 015

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 016

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 017

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 018

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 019

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 020

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 021

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 022

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 023

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 024

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 025

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 026

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 027

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 028

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 029

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 030

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 031

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 032

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 033

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 034

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 035

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 036

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 040

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 041

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 042

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 043

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 044

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 045

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 046

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 047

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 048

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 049

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 050

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 051

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 052

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 053

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 054

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 055

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 056

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 057

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 058

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 059

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 060

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 061

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 062

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 063

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 064

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 065

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 066

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 067

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 068

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 069

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 070

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 088

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 089

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 090

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 091

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 092

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 093

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

2. Configuration / source / citation identifier:

3. Dataset digest, split identifier, and code commit:

4. Method and predeclared decision rule:

5. Generated result or verified literature note:

6. Uncertainty, limitations, and threats to validity:

7. Reviewer check and revision history:

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 094

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 095

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 096

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Analysis | evidence sheet 097

Report preregistered robustness transformations, manual error taxonomy, annotation procedure, agreement, explanation faithfulness, ablation

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Discussion | evidence sheet 098

Answer each RQ, state limitations and validity threats, compare with verified literature, and identify bounded future work.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Reproducibility appendix | evidence sheet 099

Archive exact commands, commits, configuration files, environment details, split IDs, artifact map, and checksum table.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Front matter | evidence sheet 100

Title page, declaration, abstract, acknowledgement, table of contents, and list of figures/tables. Replace institutional fields before submission.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Introduction and research questions | evidence sheet 101

State the gap, the four locked research questions, directional hypotheses, scope, claimed contribution, and thesis roadmap.

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Literature review | evidence sheet 102

Synthesize verified primary sources on sentiment modelling, transformers, robustness, calibration, interpretability, leakage, and reproducibility

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Data and ethics | evidence sheet 103

Record provenance, licence, retrieval date, digest, label definition, preprocessing, representational limits, risk assessment, and quotation policy

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Methodology | evidence sheet 104

Describe split generation, nested CV, model families, tuning budget, fixed seeds, metrics, bootstrap confidence intervals, paired tests, and stop

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.

Experiments | evidence sheet 105

Insert only executed results: manifests, per-seed results, confidence intervals, paired comparisons, compute measurements, calibration curves

Required evidence for this page:

1. Claim or research question:

---

---

2. Configuration / source / citation identifier:

---

---

3. Dataset digest, split identifier, and code commit:

---

---

4. Method and predeclared decision rule:

---

---

5. Generated result or verified literature note:

---

---

6. Uncertainty, limitations, and threats to validity:

---

---

7. Reviewer check and revision history:

---

---

Integrity rule: do not replace a missing result with a narrative assertion.
